SERENCO

SERIOUS TOOLS SERIOUS RESULTS

Welcome to our latest issue of Tool Times!
Serenco has recently turned 35 years young and we are very proud of that.

Serenco has been around for more than 35 years and that is not without reason:

- Serenco is a leading supplier of professional tools and equipment
- For the car and bicycle industry but also in industry
- More than 2.500 high-quality items in stock
- Fast delivery from stock, to customers in no fewer than 48 countries
- All Serenco employees are knowledgeable, service-oriented and above all: proud!

Serenco adds value by listening good to its customers, deliver innovative products and invest heavily in good service and aftersales.

Serenco's range includes the brands BOXO (tools and workshop equipment), Powerhand (lamps and electrical tools), Power-Start (battery boosters), GoJak (vehicle movers), RakJak (air jacks), Bootgun (boot spreader), Metrinch (special tools), and Projecta (jump starters). All products are characterized by high quality and excellent practicality.

**LET'S
GET
SERIOUS.**

SERENCO
SERIOUS TOOLS SERIOUS RESULTS

BOXO Tools, the choice for the professional. Grab an item from the BOXO range in your hands and you will feel it immediately. A quality product. Made to last indefinitely. For daily workshop and industrial use. The range of professional BOXO hand tools has expanded over the past decades and currently consists of more than 1,800 different items. Almost all items are also available separately, so in the event of a loss, you do not have to purchase a completely new set. Delivery is fast, because almost everything is in stock with us in Utrecht.

BOXO, the name for quality tool storage systems developed for the professional automotive and industrial markets. Benefitting from over 40 years of experience in these industries manufacturing high quality tool storage systems. We focus on product research, design, durability, quality control with a real life testing facility. The creators of BOXO have developed this program of tool storage systems to suit all modern day requirements. BOXO continually works on product and service improvement. All BOXO products have been manufactured to meet or exceed international standards.

Bootgun

BOOTGUN
TOOLS BY SERENCO

This ingenious air operated tool opens up flexible CV boots effortlessly and evenly allowing simple insertion onto the shaft without the need to dismantle the joint. It totally eliminates the need for lubrication and the struggling involved with the manual cone method, saving you both time and money! The accompanying range of high quality, flexible neoprene rubber boots with resistance to ozone, oil, water, grit, abrasion and temperature extremes (-40° to 115°C) have been designed specifically for use with the Bootgun. Bootgun products are fabricated in the UK.

Bootgun PRO

BG-211

NEW

- New ergonomic shape, easier to operate
- Suitable for universal flexible neoprene shaft sleeves 15 ~ 155 mm
- Can be locked at any intermediate position
- Ideal for 4x4's EV's
- Can be used without air hose
- Belt hook/suspension hook
- When laid down, it does not roll away Special air inlet/outlet, Internal air coupling, (less chance of breaking off)
- Suitable for EV vehicles (EV CV boots wear out within +/- 1.5 years)
- Weight: 2.2 kg

BG-211

Tyre Seals

Tyre Seals repair kits have been specifically designed to enable puncture repairs whilst the wheel remains on the vehicle. With both string and mushroom type plug repair kits in the programme, Tyre Seals is a puncture repair system that is suitable for both passenger cars and trucks. Tyre Seals have a number of standard approvals but as on vehicle puncture repair regulations vary in different countries the user should always check the local regulations before use.

Tyre repair set for passenger cars

~~€ 134,95~~

Mushroom style inserts are designed to "fill the injury" in passenger or vans, radial or bias-ply tyres. These mushroom ensures repair. The Plug Kit makes repairing tyres easy and convenient. No great force is needed to insert the plug into the injury, the metal probe of the plug gun slides smoothly into place, the plug can be applied by squeezing the handle on the plug gun a few times. Plugs available in 8 mm which will fill up holes up to 6 mm.

Contents:

- Plug gun
- Plier
- Rasp
- Nozzle 6.4 mm
- 8 mm Mushroom plugs seal up to 6 mm holes (2x 25pc)
- Scissor
- Silicone lubricant
- Knife

Projecta Intelli-Start Jumpstarters

SERENCO
SERIOUS TOOLS SERIOUS RESULTS

Never get caught out with a flat battery again – no matter where you are! The expanding range of Intelli-Start Jump Starters are compact yet powerful enough to keep passenger cars, boats, motorcycles, ride-on mowers and recreational vehicles moving. These super-smart jump starters use a revolutionary LiFePO4 battery and patented **Rapid Recharge Technology** to recharge themselves after use (40 sec.) – so they're always ready when you need them.

Whether you've been camping in the middle of nowhere or you're starting a problem car in the workshop, Intelli-Start Jump Starters ensure you'll never let a flat battery ruin your day again!

IS 920 Jumpstarter & Power bank, 900 A, 12 V

Power-Start is manufactured in the UK and designed specifically for the professional user, the Power-Start high rate jump start pack is suitable for starting most 12 V and 12 V and 24 V engines - automotive, air, marine and rail. With safety in mind, each starter pack incorporates many safety features. Reverse polarity warning reduces the risk of wrongful connection whilst spike protection circuits reduce the risk of damage to the vehicle on-board electronic systems. The on/off isolator switch ensures a safe connection due to none live cable clamps and also avoids unintentional short circuit. Manufactured by a company with NATO certification, it's not suprising that Power-Start is the professionals choice.

Jumpstarter 700E, 12V 700A with long cable

PS-700EL

- Most used starting solution for all 12 V vehicles

GoJak was designed to improve vehicle movement and repositioning in workshops, showrooms and body shops but is also invaluable in car parks and to a multitude of rescue services. To overcome different axle widths, wheelbases, wheel sizes and tyre widths, every GoJak is self-loading.

GoJak's are mechanical, therefore very quick and simple to use without the obvious hazard of leaking hydraulics. This system makes lifting and moving vehicles in any direction very quick and easy saving both time and money. With 6 models available an immense range of vehicles weighing up to 3.128 kg can be 'lifted & shifted'.
