SERIOUS TOOLS SERIOUS RESULTS

**Welcome to our latest issue of Tool Times!**
**Serenco has recently turned 35 years young and we are very proud of that.**

# Serenco has been around for more than 35 years and that is not without reason:

- Serenco is a leading supplier of professional tools and equipment
- For the car and bicycle industry but also in industry
- More than 2,500 high-quality items in stock
- Fast delivery from stock, to customers in no fewer than 48 countries
- All Serenco employees are knowledgeable, service-oriented and above all: proud!

## Serenco adds value by listening good to its customers, deliver innovative products and invest heavily in good service and aftersales.

Serenco's range includes the brands BOXO (tools and workshop equipment), Powerhand (lamps and electrical tools), Power-Start (battery boosters), GoJak (vehicle movers), RakJak (air jacks), Bootgun (boot spreader), Metrinch (special tools), and Projecta (jump starters). All products are characterized by high quality and excellent practicality.

**LET'S GET SERIOUS.**

**SERENCO**
SERIOUS TOOLS SERIOUS RESULTS

BOXO Tools, the choice for the professional. Grab an item from the BOXO range in your hands and you will feel it immediately. A quality product. Made to last indefinitely. For daily workshop and industrial use. The range of professional BOXO hand tools has expanded over the past decades and currently consists of more than 1,800 different items. Almost all items are also available separately, so in the event of a loss, you do not have to purchase a completely new set. Delivery is fast, because almost everything is in stock with us in Utrecht.

# Bootgun

BOOTGUN
TOOLS BY SERENCO

This ingenious air operated tool opens up flexible CV boots effortlessly and evenly allowing simple insertion onto the shaft without the need to dismantle the joint. It totally eliminates the need for lubrication and the struggling involved with the manual cone method, saving you both time and money!
The accompanying range of high quality, flexible neoprene rubber boots with resistance to ozone, oil, water, grit, abrasion and temperature extremes (-40° to 115°C) have been designed specifically for use with the Bootgun. Bootgun products are fabricated in the UK.

YouTube

## Bootgun PRO

BG-211

NEW

- New ergonomic shape, easier to operate
- Suitable for universal flexible neoprene shaft sleeves 15 ~ 130 mm
- Can be locked at any intermediate position
- Ideal for 4x4's EV's
- Can be used without air hose
- Belt hook/suspension hook
- When laid down, it does not roll away Special air inlet/outlet, Internal air coupling, (less chance of breaking off)
- Suitable for EV vehicles (EV CV boots wear out within +/- 1.5 years)
- Weight: 2.2 kg
- With 60-month warranty

# Tyre Seals

SEALS
TYRE REPAIR BY SERENCO

Tyre Seals repair kits have been specifically designed to enable puncture repairs whilst the wheel remains on the vehicle. With both string and mushroom type plug repair kits in the programme, Tyre Seals is a puncture repair system that is suitable for both passenger cars and trucks. Tyre Seals have a number of standard approvals but as on vehicle puncture repair regulations vary in different countries the user should always check the local regulations before use.

### Tyre repair set for passenger cars

# Projecta Intelli-Start Jumpstarters

PROJECTA BOOSTERS BY SERENCO

Never get caught out with a flat battery again – no matter where you are! The expanding range of Intelli-Start Jump Starters are compact yet powerful enough to keep passenger cars, boats, motorcycles, ride-on mowers and recreational vehicles moving. These super-smart jump starters use a revolutionary $LiFePO_4$ battery and patented **Rapid Recharge Technology** to recharge themselves after use (40 sec.) – so they're always ready when you need them.

Whether you've been camping in the middle of nowhere or you're starting a problem car in the workshop, Intelli-Start Jump Starters ensure you'll never let a flat battery ruin your day again!

## IS920 Jumpstarter & Power bank, 900 A, 12 V

IS920

NEW

- Jumpstarter for petrol engines up to 6 L
- 240 A clamp power and 900 A peak power
- LED work light
- USB powerbank and storage bag
- Including Rapid Recharge Technology:
  After the engine is started, leave the IS920 connected for 40 seconds and the unit will fully replenisch all the energy for the next jumpstart.

# Power-Start

POWERSTART
BOOSTERS BY SERENCO

Power-Start is manufactured in the UK and designed specifically for the professional user, the Power-Start high rate jump start pack is suitable for starting most 12 V and 12 V and 24 V engines - automotive, air, marine and rail. With safety in mind, each starter pack incorporates many safety features. Reverse polarity warning reduces the risk of wrongful connection whilst spike protection circuits reduce the risk of damage to the vehicle on-board electronic systems.
The voltage-free main switch ensures a safe connection and also prevents unintentional short circuits. Manufactured by a NAVO-certified company, Power-Start is the logical choice for the professional. Serenco has an in-house after-sales service for all Power-Start boosters.

# GoJak

GoJak was designed to improve vehicle movement and repositioning in workshops, showrooms and body shops but is also invaluable in car parks and to a multitude of rescue services. To overcome different axle widths, wheelbases, wheel sizes and tyre widths, every GoJak is self-loading.
GoJak's are mechanical, therefore very quick and simple to use without the obvious hazard of leaking hydraulics. This system makes lifting and moving vehicles in any direction very quick and easy saving both time and money. With 6 models available an immense range of vehicles weighing up to 3.128 kg can be 'lifted & shifted'.

YouTube
