SCI90

MICROPROCESSOR CONTROLLED BATTERY CHARGER

- Microprocessor controlled multi-stage charging for addedprecision, safety and battery life
- Thermal runaway protection monitors charge process to prevent battery from overheating
- Auto voltage detection automatically detects 6 or 12 volt batteries
- Desulfation mode a special mode of operation designed for sulfated batteries
- Float monitoring automatically maintains optimum battery charge
- Reverse hook protection charger will not operate if clamps are reversed on battery terminal
- Short circuit protection, spark proof
- Digital display
- Charges all battery types standard, lead-acid, calcium, AGM, start-stop & gel cell batteries

~~€199,-~~
€169,-

Li-Ion Boosters (LiFePo4)

- Multiple starts possible without recharging
- Minimal self-discharging (doesn't need to be charged continually)
- More powerful during the next start
- Always ready to use
- Lightweight

BOOSTERS (AGM)

- Robust plastic housing with long cables and automatic charger
- High quality batteries and charger
- 18 months guarantee on the battery and material failures
- On/Off isolator switch for de-energizing the clamps to make a safe connection to the car battery
- Surge and spike protection circuits reduce the risk of damage to the on-board electronic systems
- Reverse polarity protection via acoustic signal
- Fully insulated, heavy duty clamps
- High quality welding grade cables

BG-111

BOOTGUN V3.0

This ingenious tool, operated by air, opens up the flexible boot effortlessly enabling simple fitting onto the shaft, totally eliminating the need for lubrication and the struggling involved with the old fashioned cone method. BG-111 The Bootgun is designed and equipped with a pressure relief device to ensure maximum safety. Endurance testing under variable conditions has proven this tool to be 100% safe and reliable. The Bootgun complies to every applicable industrial safety standard. Connection 1/4" - 18 NPT

Suitable for	CV joints 15 - 115 mm
Max. air pressure	8 bar (110 PSI)
Air inlet	1/4" - 18 NPT
Weight	2.2 kg
Garanty	2 years

ALUMINIUM INSPECTION LAMP

Whether you store it in your shirt pocket, pants pockets, or a tool bag, the G20, with it's crisp, clean inspection beam, is a torch that you really can't miss! Exceptionally handy, slim-line Inspection Torch with high quality Inspection beam and long battery run-time.

- Low glare
- Crisp edge
- Uniform beam
- 5 year warranty

RECHARGEABLE INSPECTION PENLAMP

With a sleek design and recharging capability, the A9R Flashlight is the go-to penlight for serious technicians. It has our Inspection Beam that throws out a perfectly circular beam without any dark spots that make up close inspections immediately easier. It recharges by placing a charging cap over the head of the light and works with any USB port. "Ideal for inspections in confined spaces and areas with limited space for visibility such as inspection of brake calipers without disassembly.

- Supplied complete with charger adaptors for 220v AC Mains , 12v DC Car Charger & direct USB adaptor lead
- Lithium-Polymer battery for long working life and reliability

DUAL-COLOR W/UV COB CLIPLAMP

The HX3 LED C.O.B. Cliplight is the ideal UV light for everyday carry. The HX3 Cliplight can be used for either general uses in White mode or to identify leaks or to identify security features in either currency or identification cards while in UV mode. The universal clip on the light makes it easy to clip on pockets or even the bill of your hat, while the integrated magnets allow the HX3 to be placed on magnetic surfaces. Once placed or clipped to a surface, the light features a 180-degree beam adjustment and enable the optimal beam placement for the user.

- UV light option is particularly useful in workshops for leak-detection of brake fluid, diesel, air-con refrigerant

POWER PROBE 3

The Power Probe 3 is a Digital Voltmeter that works off of 12-24 Volt sources, with the ability to apply power and ground for functional component testing. With an Auxiliary Ground cable it can check continuity and test components, the tool is protected by an 8 Amp circuit breaker.

- Supplies power or ground for functional component testing 8 Amps power feed is protected by a circuit breaker
- DC Voltmeter indicators provide active feedback
- LED lights
- 12 - 24 Volt range
- Bad ground iIndicator
- Continuity tester
- Short circuit indicator
- Relay and component tester
- Audible monitoring of electrical signals
- Power cable length 20 FT (6m)

€139,-

PP3CSRED

POWER PROBE 3EZ

The Power Probe 3EZ is a Digital Voltmeter that provides diagnostic power with the flip of a switch. This tool simplifies the testing of fuse boxes, verifies correct operation of motors, lights, relays and wires. This design includes an ergonomie body with a large screen that is capable of flipping 180 degrees for easy viewing in hard to reach spaces.

- Includes EZ learning & diagnostics
- Flip screen mode displays readings 180°
- Ouickly test fuses & circuits for voltage in VDC Mode
- Resettable 8 Amp circuit breaker
- Adjust the AC threshold setting to audio circuits or AC signals
- Determine if motors, lights, fans, relays or circuits are operational On or Off the vehicle by applying battery power or ground through the tool
- Find good or bad grounds on a vehicle
- Quickly identify power or ground circuits with a touch of the Probe tip
- Power cable length 20 FT (6m)
- 12-24 Volt Range

€169,-

PP3EZREDCS

POWER PROBE 4

The Power Probe 4 provides the ability to supply battery ground and power and 8 diagnostic testing modes to provide automotive techniclans with detailed information on the circuits and signals being tested. The PP4 will test for AC/DC Voltage in 100ms and 50s resolutlons, AC Volts RMS & Volts P-P, Measure resistance, Hertz, frequency and pulse width (negative & positive), tests fuel injectors, supply computer-safe voltage for testing module drivers (transistors) and works as a circuit detector with the PPECT3000 (not included).

- 23 FT (7m) cable
- Ergonomie and heavy duty housing
- Water and solvent resistant
- Automatic resetting 8 Amp circuit breaker
- Intuitive and easy to use
- Compatible with all Power Probe test leads and accessories
- 12-24 Volt Range

€329,-

PP401AS

SHORT OPEN TRACER

The PPECT3000 Electrical Short and Open finder makes locating shorts and opens quicker and more accurate than ever before. When the PPECT3000 Transmitter is connected to an isolated circuit, it will quickly determine if the circuit has an open or if the circuit is shorted to ground. The PPECT3000 Receiver is designed to detect signals from the transmitter with it's new sensitivity adjustment allowing for accurate detection. Additional hardware is included for testing lighting systems, connecting to universal adapters, tapping into fuse terminals, back probing connectors, piercing wires, and connecting to a terminal. Blow molded case is included to store the PPECT3000 and all the accessories.

- Locate short circuits without removing plastic panels, molding, and carpet
- Find short to ground circuits, switches, or breaks in wires test and find intermittent conditions
- Sensitivity adjustment from 1-8 IN
- Trace short to ground wires with visual navigation & sound indicators
- Works on cars, boats, rv's, light duty, heavy duty trucks and trailers

€199,-
